

Senator Hays Burned—One Man Killed—Outrages Conduct of the Abolitionists—Military Orders—Misconducting Hasting to the Rescue.

St. Louis, Nov. 23th.—Exciting and highly important news from Kansas has just been received.

On Thursday, Nov. 23th, near Hickory Point three abolitionists, armed with Sharp's rifles, went to the claim of Mr. Coleman, and peremptorily ordered him to leave, allowing him only ten minutes in which to do so, and threatening to shoot him in case of refusal to obey. He immediately left but shortly afterwards returned well armed. One of the three abolitionists then attempted to shoot him but missed him. Coleman thereupon shot him dead, and immediately gave himself up to the authorities for trial.

A mob of abolitionists, all armed with rifles, then gathered, and repairing to Coleman's house, drove his wife and children off, set fire to the building and burned it down, together with the house of the pro-slavery man in that vicinity.

Deputy Marshal Jones arrested the leader of the mob, and one other person, and obtained the names of twenty of the mob.

The abolitionists are now gathering force at Leavenworth, and have demanded the release of their comrades and the surrender into their hands of Coleman.

Gov. Shannon has ordered out the militia to aid the Marshal in sustaining the laws.

These proceedings have created the most intense excitement among the citizens in the border counties in Missouri, and they are repairing in large numbers to Kansas to offer their services to the Governor to aid in maintaining the laws.

Some sixteen or seventeen houses in all have been burned at Hickory Point, and several citizens in that vicinity are missing.

The Governor of Kansas issued a proclamation calling upon all law-abiding citizens in the territory to suppress the outbreak.

INDEPENDENCE, Mo., Nov. 30.

A messenger arrived at Shawnee Mission last night, who states that Deputy Marshal Jones and fifty men with him at Leavenworth. He also states that all Lawrence is up in arms, and that the men are drilling company, and that they had in their possession five pieces of artillery.

Outrages by the Abolitionists—Houses Burned and Women Driven Away—The People Determined to Enforce Law and Order.

Weston, Mo., Nov. 30.

The abolitionists outside in Douglas county have burned a number of houses, and driven a number of families, consisting of women and children, to Missouri for refuge.

Fortified accounts reports that the law-abiding people of the Territory are rallying in large numbers to the assistance of the Sheriff of Douglas county, in the execution of the law. That officer has, by this time, an overwhelming force at his command.

Sec. Jones is acting as Deputy U. S. Marshal, for Douglas and Johnson counties.

The Very Latest—Excitement Increasing!—Weston, Mo., Nov. 30, P. M.

The greatest excitement continues to exist in Kansas. The officers have been resisted by the mob, and the interposition of the militia has been called for.

A report from Secretary Woodson to Gen. Egan has been written in which the writer requests Gen. E to call for the rifle company at Platt City, Mo., so as not to compromise Governor Shannon.

Four hundred men, from Jackson county, Mo., are now en route for Douglas county, Kansas Territory. St. Joseph and Weston, in Missouri, are requested each to furnish the same number of men. The people of Kansas are to be subjugated at all hazards.

LATER PROCEEDINGS.

Bloody Work Anticipated—Appeal to the President for Assistance—Strength of the Abolitionists—Lane bids Defiance!

INDEPENDENCE, Mo., Dec. 3.

We have just received reliable intelligence from Kansas Territory, which increased the high excitement already existing here. You have been apprised of the origin of the difficulty—that of the arrest of a prisoner in the hands of the citizens of Lawrence and its vicinity, and their refusal to deliver any of the parties concerned to the officers of the territory, and to the Governor, or to those of the General Government. This determination is strengthened by the course pursued by Gen. Lane, and also, by the editor of the paper at Lawrence, and a few other men of a similar stripe, who are continually making harangues to the populace, and urging them to make preparations for a fight.

On Saturday night Gen. Lane delivered a speech of this character, which was received with the greatest demonstrations of enthusiasm. Governor Shannon, seeing such a state of things existing, very properly ordered out the militia of the Territory, who did not respond very cordially to his wishes. Many of the citizens of the Western border counties in Missouri, willing to aid in quelling the disturbance, offered their assistance, and are now in readiness to go to the scene of difficulty at a moment's warning. Many have already gone from Lafayette, and the adjoining counties, well prepared for the emergency.

The Governor's party were from 250 to 300 men, as at Franklin, a few miles distant, awaiting a greater force.

Reports have reached us that there are 1,000 men in Lawrence, organized and ready for resistance, armed with Sharp's rifles, and that they are encircling the city as rapidly as they possibly can.

From another source we learn that the better men in Lawrence say they are willing to give up all concerned in the affair, if the legally authorized persons seek to enforce the law, and they will resist to the death.

Governor Shannon in response said: "Why not deliver them to the Sheriff or to the U. S. Marshall, who have already demanded them?" Trouble will no doubt result from it, as much excitement exists on both sides.

A meeting is now being held in Kansas, to see if some measure cannot be adopted to terminate the matter peaceably, if possible, but forcibly if necessary.

On Saturday Governor Shannon applied to President Pierce, by telegraph, for assistance from the U. S. troops at Fort Riley and Leavenworth, and until such aid is granted nothing will be done, unless the excitement of the parties concerned will bring on the crisis before. If so, many valuable lives will be lost.

Of all that transpires further I will endeavor to keep you promptly advised.

INDEPENDENCE, Dec. 3, P. M.—There is great excitement all through this upper country, and overwhelming numbers are pouring from every direction in the territory to sustain the laws.

Gen. Lane is encircling himself and throwing up breastworks. He is also burning beacon lights, which can be seen twenty-five miles from Lawrence, and bids defiance.

WESTON, Mo., Dec. 4.

A message was received late yesterday evening from T. T. Abell, Esq., at Atchison, Kansas Territory, stating that one of the leaders of the Kansas legion had been arrested by some of the citizens, and when he found he was taken. He attempted to destroy some papers he had with him by chewing and swallowing them. He was, however, prevented from doing it, and upon examination the papers were discovered to contain the secrets of the "Midnight Order."

Atchison was to be burned down, and Pat Laughlin, who exposed the secret abolition organization, was to be murdered. The citizens of Atchison had mostly left that place to join Governor Thomas' forces at Leavenworth, and their being scarcely any arms remaining in the place, they desired a company of armed men from Weston to help them repulse any attack that might be made by the abolitionists on the town. A company of our citizens, therefore prepared themselves and left last night at 9 o'clock for Atchison.

The occurrences are producing a dreadful state of excitement in our midst. Groups of men are constantly watching about the streets to hear the latest news. Should these disturbances increase, our business transactions in all this section of the State must necessarily be seriously checked.

FIRST THINGS IN KENTUCKY.—A correspondent of the Louisville Courier compiles for that paper, the following facts. The first almanac ever published in Kentucky was by the Messrs. Bradford, of Lexington, 1788. The year previous the same gentlemen established the first newspaper in the State. In 1788 the school where Latin and Greek were taught, was opened, and in April of the same year, the first dancing school was taught. The first watch-maker who settled in Kentucky was Mr. West, who commenced business in Lexington in 1788. In 1794 the same person made the first successful application of steam to navigation. He constructed a steam boat on a small scale, dammed up the Town fork of Elk River, and his boat moved through the water with great velocity! The first salt made in Kentucky was at Bullitt's lick, in what is now Bullitt county, in 1780. At one time there were five hundred persons engaged in the manufacture at that place. The first corn ever planted by a white man in Kentucky was by Simon Kenton, in Mason county, near the present town of Washington, in 1775. The first orchard in Kentucky was planted in 1774, on Salt river, in Mercer county. It embraced two acres and consisted of pears and apples. Higbee's grist mill, near Lexington, erected in 1788, was the first of the kind put in operation in Kentucky. The first paper mill in Kentucky was erected by Messrs. Craig & Parkers, near Georgetown, in 1785. The first pioneer of Kentucky was John Finley, who thoroughly explored the State in 1767.

UTAH.—A letter from Fillmore city, Utah, estimates the population of that Territory at from 60,000 to 100,000 persons. These people, the writer says, are mostly active and industrious—in fact the most industrious community he ever saw. Mills and factories are in operation in all parts of the Territory where settlements exist, as are also common schools. The capital building, in process of erection at Fillmore city, is spoken of as superb in design. It is built of a superior quality of stone of a reddish hue. Salt Lake city contains 15,000 inhabitants, and has fine stone hotels, school houses, &c. A large number of the people are of foreign birth, mostly English. The city next in importance is Provo, containing about three thousand inhabitants.

The common schools of this country are sinks of moral pollution and nurseries of HELL.—Chicago Catholic Tablet.

Are they? You have a queer taste in opinion. Americans differ from Mr. Tablet. Americans differ from Mr. Arch-Hughes to debauch and destroy the common schools of this country, they will be sustained, and will continue to educate the children of a free and happy people.—Baltimore Clipper.

CHRISTIANITY IN CHINA.—In 1833 there were only some half a dozen Protestant Christians who could be assembled together for religious worship in China. Now there are daily religious services at Hong Kong and all the open cities—a score or more in all, upon the Sabbath, where thousands go to worship; and the whole mass of Chinese minds is stirred up by a body of insurgents, of whom one prominent characteristic is their rejection of idolatrous worship.

The corn that took the prize at the Iowa State Fair produced 162 bushels to the acre.

Lexington and Danville Railroad

In the last week, we had the pleasure of meeting Mr. ROEBLING, the distinguished Engineer of the Niagara Suspension Bridge, and who also furnished the plan and estimates for the Suspension Bridge over the Kentucky River, on the Lexington and Danville Railroad. The latter bridge, as our readers may know, is 100 feet longer than that over the Niagara. It will be the largest and best bridge of the kind in America—a noble monument to American Civil Architecture. Mr. Roebling informs us that this bridge is going on finely, and having been on the spot, he testifies, in the strongest terms, to the ability and energy with which Gen. Combs is pressing forward the work; and to the prospects of the road for a great business when finished. As the road is comparatively a short one—thirty-six miles—many persons have underrated its value. But this short distance, at the end of the Covington and Lexington, will furnish more business to Cincinnati, than the whole of the Covington and Lexington road. The reason is obvious, the Southern end of the Danville Railroad, to which produce is wagoned from points still further South, is 132 miles from Cincinnati, at which distance produce will be wagoned fifty miles to go on the road; but at Lexington or Paris, it will only be wagoned twenty or thirty miles. The area of new trade introduced by the Lexington and Danville Railroad, will be at least 1,600 square miles, and this is nearly or quite equal to the area now reached by the Covington Road. That our readers may know the general condition of the road, we subjoin such particulars as we have.

In June last, the account stood thus: Amount of Stock Subscribed.....\$523,450 Paid in.....579,816 Total Receipts.....633,266 Construction.....579,963

It will be observed, that the road has no debt—except a very trifling amount. It has no Bonds, unless it may be some \$5,000 or \$6,000 for special purposes.

Since June, we believe, an estimate of \$10,000 per month has been paid, which would bring the construction account up to about \$620,000.

Of this, over \$100,000 have been put in the bridge over the channel of the Kentucky river, and which is built on the solid rocks which line that river.

This road has the extraordinary virtue, in these days, of having got along so far without debt. This virtue, however, seems to be less valued, than it ought to be. The great idea of the times seems to be, to get in debt as much as possible. But, if subscribers to a railroad stock ever should have confidence, it is in a road of this description, which, in the heart of a fertile country, and connecting with a great city, has been made without debt. About \$70,000 only of the \$100,000 pledged in Cincinnati, has yet been obtained. We trust that in the great wealth and business of Cincinnati, this small amount may be readily got.

Laconics from Both Sides.

Against the insidious wiles of foreign influence, (I conjure you to believe me fellow citizens,) the jealousy of a free people ought to be constantly awake, since history and experience prove that foreign influence is one of the most baneful foes of a Republican Government.

Thus spoke the mighty father of his country, in an age when the dangers of foreign influence were nothing when compared with that of the present day. The land was not then thronged with foreign paupers and criminals, as now, but still the discerning eye of Washington could mark an impending danger.

As many of our old line friends are in the habit of accusing us of only giving one side of the question in our paper, we have resolved in this article to give both. Here is something from the other side:

"Within thirty years the Protestant heresy will come to an end; and if we can only secure the West and the South we will then take care of New England. All that is necessary, is money and priests, to subjugate the mock liberty of America."—Bishop England.

We have now given a laconic from both sides, and we hope all are satisfied. Since we have commenced the business, however, we will give a few more:

"Now is the time for this people to summon every aid, human and divine, to exhibit every moral virtue and call forth every christian grace in behalf of America!"—JOSIAH QUINCY.

"Protestantism of every form has not, and never can have any more, where Catholicism is triumphant.—Catholic Review.

"Here, Sir, in America, the people rule or govern; here they act by their immediate representatives, and do not think it necessary to consult a Pope."—ALEX HAMILTON.

"The United States belong to our lord the Pope, and are his property, and the time is coming when the Roman Catholic religion will be the only one tolerated by the people."—PRIEST SULLIVAN.

"But while I do live, let me have a country, or at least the hope of a country, and that a free country."—JOHN ADAMS.

"I would rather half of the people of the nation should be burned at the stake than that one man should read the Bible, and form his judgment from its contents."—Bisnor Snotswood.

DR. M. Johnson was recently expelled from the class at the Cleveland Medical College, and refused the advantages of instruction, in consequence of a suspicion having got abroad that he had negro blood in his veins.

TRULY STRANGE.—The Fredericksburg (Va.) Herald states that Thos. B. Baron, Esq., who was lately appointed President of the Fredericksburg and Gordonsville Railroad, accepts the office, but declines the salary attached thereto.

SENATOR DOUGLASS is yet sick at Terre Haute, and it is supposed that he will not be able to take his seat in the Senate for some time to come.

The increase of the American vote in New York this year over last is 21,544.

Eighteen Slaves in Jacksonville, Fla.

WILLIAM K. KIRK, a citizen and slaveholder of Louisiana, not long since came up to Jacksonville, Illinois, bringing with him eighteen slaves, for the purpose, he says of allowing them to visit their relations there and of receiving an education. They are to be free at his death. The citizens of Jacksonville, though of anti-slavery proclivities, don't like the idea of having negroes in their midst, it would seem, for they expressed considerable dissatisfaction at the conduct of Mr. KIRK, who, they thought, had brought his slaves to their town for the purpose of turning them loose on society, without any means of support, to shift for themselves, and eventually, to become a burden and nuisance to the community.

The owner of the slaves seems however, to be satisfied by better motives. He has provided his negroes with wages, teams and outfits necessary to enable them to secure a competent livelihood, and pledges himself to remove them whenever they become troublesome. He has not set them free yet, nor do they desire their freedom; for if they did, they could easily obtain it.

COMPTONAL ART ASSOCIATION!

Second Year.

ARRANGEMENTS for the Second Annual Collection of this new and popular institution for the diffusion of Literature and Art, have been made on the most extensive scale. Among the works already engaged, is the famous "GENOA CRUCIFIX," which originally cost Ten Thousand Dollars.

In forming the new Collection, the diffusion of works of American Art, and the encouragement of American genius, have not been overlooked. Commissions have been issued to many of the most distinguished American Artists, who will contribute some of their finest productions. Among them are three Marble Busts executed by the greatest living Sculptor,—Hiram Powers; George Washington—The Father of his country; Benjamin Franklin—The Philosopher; Daniel Webster—The Statesman.

A special agent has visited Europe and made careful and judicious selections of foreign works of Art, both in Bronze and Marble; Statuary and Choice Paintings.

The whole forming a large and valuable collection of Paintings and Statuary, to be distributed among the members of the Association for the Second Year.

Terms of Membership.—The payment of three dollars constitutes any one a member of the Association, and entitles him to either one of the following Magazines for one year, and also a ticket in the distribution of the Statuary and Paintings.

The Literature issued to subscribers, consists of the following monthly Magazines: Harper's, Putnam's, Knickerbocker, Blackwood's, Graham's, Godey's Lady's Book, and Household Words.

Persons taking five memberships are entitled to any five of the Magazines for one year, and to six tickets in the distribution.

The net proceeds derived from the sale of memberships, are devoted to the purchase of works of Art for the ensuing year.

The advantages secured by becoming a member of this Association, are—

1st. All persons receive the full value of their subscription of the year, in the shape of sterling Magazines and Literature.

2d. Each member is contributing towards purchasing choice Works of Art, which are to be distributed among themselves, and are at the same time encouraging the Artists of the country, dispersing thousands of dollars through its agency.

Persons in remitting funds for membership, will please give their post-office address in full, stating the month they wish the Magazine to commence, and have the letter registered at the Post Office to prevent loss, on the receipt of which, a certificate of membership, together with the Magazine desired, will be forwarded to any part of the country.

Those who purchase Magazines at bookstores, will observe that by joining the Association, they receive the Magazine and Free Ticket in the annual draw, at the same price they would pay for it, Magazine alone.

Beautifully illustrated Catalogues giving full descriptions, sent free on application.

For Membership, ad'rs

COMMISSIONER'S SALE

VALUABLE PROPERTY.

BY virtue of a Decree of the Boyle Circuit Court, rendered in the case of JOHN H. CALDWELL and OTHERS against JOHN D. TERRELL, I will, as Commissioner, expose to sale, to the highest bidder, on the premises, in Danville,

On Saturday, December 15th, 1855.

JNO. F. ZIMMERMAN & SON—EDITORS.
DANVILLE, KY.

Friday, December 7, 1855.

PARTICULAR NOTICE.

We commence sending out our accounts with this number of our paper, and hope those who receive them, will make it convenient to call at the office and settle, or remit to us by mail immediately. We need the money, and are tired of waiting for it.

Those of our friends who have promised to settle their indebtedness by sending us Wood, will please do so now, or we shall call upon them for the cash on our accounts.

MEAT FINE COOK.—Mr. J. D. TANNER left our office a few days since, a dozen ears of the finest corn we have ever seen. One of the ears contains about 1400 large round grains. The weight and other particulars will be given at the proper time. In the meantime, we would like to see whether or not our farming friends can beat it.

CIRCUIT COURT.—The chambers and criminal term of our Circuit Court is still in session. Judge Bridges, though arrived at that advanced age, when men are generally feeble and often incompetent, is presiding with the ability, patience, and untiring perseverance which have always characterized his presence upon the bench. He still reads the docket of his courts without the aid of glasses, and dispatches business, renders his decisions, and attends to all the duties of his position with as much rapidity and correctness as he did ten years ago.

Among the cases disposed of since our last issue, is that of the Commonwealth vs. JOHN HENDERSON for the killing of WASHINGTON McGINNIS, in August last. This case was submitted to the jury on Wednesday, and a verdict of acquittal rendered in a few minutes after its submission. Speeches were made for the defence by Hon. J. B. Thompson, Hon. J. F. Bell and J. T. Boyle, Esq., and by P. B. Thompson, Esq., Commonwealth's Attorney, Geo. W. Dunlap and James D. Hardin, Esq., for the prosecution. The case of the Commonwealth vs. JOHN HENDERSON, charged with the murder of LEWIS STREET, has been postponed to next Court.

THE TELEGRAPH.—We had during our recent visit to Louisville, a conversation with Col. TANNER, who informed us that he had completed his arrangements for constructing the proposed telegraph line between this place and Lexington. The materials for the work have all been purchased and are now at Lexington. Col. T., though not encouraged with "universal aid" by many of our citizens, to whom we have been reasonably expected, some of whom we shall have the telegraph, any how. The stock may not pay an immense dividend, but the advantages which will be derived from it, and the conveniences which it will afford, are incalculable. Col. TANNER deserves the thanks of the entire community for the indomitable energy he has exhibited in this enterprise.

PROF. JOHNSON, whose success in the treatment of stuttering and stammering we have heretofore referred to, can still be consulted at the Central House by persons afflicted with impediments of speech. He has already discharged one case (young Mr. Pardon, of this county), who we understand is entirely cured, and has now several other cases under treatment, rapidly improving. We are satisfied, from our own observation, of his ability to do all he professes.

SALE OF FURNITURE, &c.—Our readers will recollect that Rev. Mr. SCOTT's sale of household furniture, and other desirable property, will take place to-morrow, commencing at 10 o'clock, A. M.

STARTLING NEWS FROM KANSAS.—We publish in another part of our paper the details of the latest news from "the seat of war" in Kansas, representing that territory in a deplorable state of anarchy and excitement. We are inclined to think the accounts of affairs in that quarter are rather highly colored, but probably true in the main. A despatch from Washington states that the President on the 2d, and an order for the transfer of troops from all the nearest posts, transmitted by telegraph.

KENTUCKY STAGE COMPANY.—We have recently had opportunities of enjoying the excellent accommodations afforded to travellers by the stage line of Messrs. HAWKINS, IYING & CO., who now have regular lines running from this place to Lexington and Crab Orchard, from Bryanville to Crab Orchard, by way of Lancaster, and from Lexington to Cincinnati, Winchester, Mt. Sterling, Richmond, &c. They use fine comfortable coaches, on all their lines, good fast travelling, and at the same time, gentle horses, and have in their employ careful, experienced, and accommodating drivers. We do not believe there are any stage lines in the country better stocked and managed, and we feel certain there are none where more attention is paid to the comfort of passengers. Travelling, though generally pleasant, is made doubly so, as the lines we have referred to, where comfort, speed and safety are all combined. The traveler must be hard to suit, whose opinion in this respect is not the same as our own.

NELLIE OF TRURO.—By the author of VERA, or the Child of Adoption. New York: Robert Carter & Brothers. A copy of the above book has been kindly presented to us by Mr. Davidson, of Louisville. It is a handsome volume, finely printed, and well bound. "The author of VERA" made a decided hit in the literary world by the publication of that work, and we judge that "Nellie of Truro" will add to, rather than diminish his high reputation as a writer of fiction. The style is pleasant and smooth, the portraits of character true to life, and the incidents narrated in a style which cannot fail to captivate the reader. It can be had in this place at the book store of Mr. W. M. Stout.

THE bill has been introduced into the Tennessee Legislature, to compel all free persons of color in the State to emigrate to Liberia, or elsewhere, beyond the limits of the State.

The 34th Congress commenced its first session on Monday last. We have yet no news of its organization. The fact that no party has a clear majority in the House, renders the election of Speaker and other officers a difficult matter, especially in the present excited state of the country in reference to political questions, when each party is regarding the others with more than ordinary jealousy, and each seems determined to vote only for men professing its own peculiar principles.

The following despatches embrace all the Congressional proceedings received up to the time of putting our paper to press:

Washington, Dec. 2.

The House was called to order at 10 o'clock, by Forney, clerk.

The new members were then sworn in. The roll was called, and 225 members answered. On motion of Mr. Jones, of Tennessee, the House proceeded to the election of a Speaker.

Mr. Richardson of Illinois, Democrat, had on first ballot, 74 votes; Henry M. Fuller, of Pennsylvania, 77; Campbell, of Ohio, 53; Pennington, of New Jersey, 7; Marshall, of Kentucky, 35; Banks, of Massachusetts, 21. Various others were voted for. Much interest is manifested. No election, 113 being necessary to a choice.

The Senate met at 3 o'clock.

The Senate was called to order at noon. Messrs. Hale, Durkee, Yule, and Pearce were sworn in. Rev. H. C. Deane was elected Chaplain, after which the Senate adjourned.

House.—On motion, the balloting for Speaker was resumed. The first ballot resulted as follows: Richardson 74, Campbell 58, Banks 25, Fuller 19, Marshall 19, scattering 25—no election, 113 being necessary to a choice.

Washington, Dec. 4.

On the sixth balloting for Speaker, Richardson received 75, Campbell 57, Banks 25, Fuller 22, Marshall 18. Second balloting—Richardson 75, Campbell 54, Banks 22, Fuller 20, Marshall 18. Third balloting—Richardson 75, Campbell 51, Banks 32, Fuller 20, Marshall 18. Fourth balloting—Richardson 75, Campbell 51, Banks 31, Fuller 21, Marshall 16. There is yet no choice.

The House, on motion, adjourned.

A despatch dated 3d inst., from Washington, says it is generally understood there "that on the next day (Tuesday) the Black Republicans and Freesoilers would concentrate on Banks, of Mass., (which, however, they do not appear to have done), and that numbering together 123, they would have enough to elect him. The caucus of the Southern Americans, National Democrats, and Whigs rejected all fusion with the Freesoil factions. It is said that Greeley, Seward and others, the National Americans would vote for Henry M. Fuller for Speaker, and endeavor to draw the entire Democratic vote to him by conceding to them the clerk and printer—thus forming a Union party against the Freesoil factions. They deny that the Republicans can, by a fusion poll more than 105 votes, while 113 are necessary to elect.

The President persists in refusing to print the message, and it will be sent to the two Houses in writing.

"Consistency is a jewel," which of all things in the world modern bogus Democracy is farthest from possessing. The members of that party complain very bitterly of "persecution" and "abuse," if any have the cruelty to call them Locofocos or anti-Americans, and still we cannot pick up a so-called Democratic paper, without finding that almost everything it contains is full of denunciations of the American party and its principles, highly seasoned with vile epithets, as inappropriate and inelegant, as they are vile and unwarranted. Such names as "thugs," "night conspirators," and "assassins," "thugs," "villains," and the like, have become to be so generally used by our opponents in referring to the American party, that we have long since ceased to expect anything better from them. In the midst of all their slang, however, we sometimes find a "classic gem," rather out of the usual line of their abuse, and very justly entitled to the praise of originality—if nothing else. For instance, the unflattering recently held a meeting in the town of Pikeville, Ky. Sundry resolutions were passed, in which, of course, Sam was feelingly alluded to. One of the resolutions speaks of American principles as "begotten and born in the foul stench of a Know-Nothing den." That strikes us as a rather rich sentence, and we commend it to the careful copying of the Democratic editors throughout the country. The same meeting recommended Linn Boyd for the Presidency.

THE Sag Night organs, and many of the lesser lights of the party, too, are getting exceedingly jealous of everything truly and purely American in character. Although Popery is, and always has been an avowed and bitter opponent of Protestantism, and though Protestant ministers have always heretofore been regarded as doing nothing but their duty, when they exposed the enormous and dangerous errors of the Romish Church; now a preacher cannot say without scores of arms ready to denounce him as a "Know-Nothing." If things go on at this rate, it will not be long before Americanism to speak in high terms of American institutions, "a Know-Nothing sign" to love our country; and the whistling of "Yankee Doodle" or "Hail Columbia" will be *prima facie* evidence that the performer has "seen Sam."

THE Anti-American editors of this State do not seem to like the late American mass meeting at Louisville. They are very much displeased at the fact that Northern men were present and participated in the proceedings. Before it took place, they were lavish in their prophecies that no Northern members of the party would be there, and their own prophecies of the ground on which to ridicule the American party's claim to Nationality. But Northern men were there, and because they were, the cry of "Abolitionism" is again sounded. We have no disposition to argue such a matter with such an inconsistent and insecure set as are the editors referred to. We never expect to see the American party take any step or declare any principle which will please either them, Archbishop Hughes or the Pope. If they should express satisfaction at anything the American party did, we would feel certain there was something wrong about it.

It matters not who were at the Mass Meeting at Louisville. We know there were thousands of the true Union Americans of this and other States, full of enthusiasm and patriotic devotion to their principles and their country, present.

The resolutions adopted show the spirit of the occasion, and lay before the world the doctrines adhered to by the American party of Kentucky. Why is it that the Democratic editors see nothing in the resolutions to attack? The platform of principles announced by a meeting constitutes the correct index to the political objects and feelings of the members of that meeting, whatever may be its character, wherever held, and if they are right, the fact that Northern men were present when they were adopted, will not make them wrong.

AMERICAN PROCLAMATION.—We perceive that E. B. BARTLEY, President of the National Council, U. S. N. A., has issued a proclamation in conformity with the resolution adopted by the National Council in June, 1855, calling for the holding of a convention in Philadelphia, Feb. 22, 1856. Delegates are to be elected by the subordinate councils, one in each Congressional district, and two by each State Council. The President also recommends that alternates be chosen by each council. The proclamation also embodies a call for the assembling of the National Council on the 18th of February, in the same city, for the transaction of such business as may be brought before it.

STEAMBOATS BURNED.—SEVERAL LIVES LOST.

The steamers George Collier and Mayflower were destroyed by fire at Memphis on the night of the 2d inst. The officers of the boats escaped with their lives, but the books and papers, and the baggage of the passengers, were all burned. A number of lives were lost, including two of the cabin boys of the Geo. Collier. The loss is estimated at \$250,000, of which only \$15,000 was covered by insurance. The fire originated in the George Collier, which had just arrived from New Orleans. The Mayflower was a new boat.

REVOLT IN SING SING PRISON.—The convicts in the foundry at Sing Sing Prison, N. Y., revolted on Tuesday week, but were promptly suppressed by the keepers, though with hard blows. On the next morning, a disturbance occurred among the quarry convicts, when one of the number, James C. Urban, a desperate character, who called upon his confederates to oppose the officers, was killed by a blow from a crowbar in the hands of one of the latter.

THE INDIANS IN OREGON AND WASHINGTON TERRITORIES.—Private letters represent the condition of the territories above named, through Indian outrages, as being most deplorable. It is said that they do not make indiscriminate war on the whites, but on the Americans only. The subjects of Britain there remain almost entirely unmolested by them. This is accounted for by the fact that their arms and ammunition are procured from the Hudson Bay Company, which still has stations in that quarter of our country.

IMPORTANT FROM NICARAGUA.—Late advice from Nicaragua announce the recognition of Gen. Walker's government by the American Minister. Gen. Corral, former commander-in-chief of the republic, was arrested on the 5th ult., charged with treason, tried, convicted, and shot. Other arrests were made in the same connection. Gen. Rivas has been elected President.

FROM CALIFORNIA.—The latest advice from California are quite interesting. Crane and Tree had been hung at Coloma. Crane was formerly from Lexington, Ky., and was convicted of murdering a woman to whom he was engaged to be married. The Chinese are leaving in great numbers, owing to the tax upon foreign miners, which amounts to \$75 the present year, to be increased \$24 each succeeding year. Four cattle thieves, three Mexicans and a German man, were hung by Lynch law at Hills Ferry on the 19th of October.

The news from Oregon and Washington territories contains accounts of numerous Indian outrages, trains attacked, teamsters killed, &c. Nine companies of volunteers have been called into service to prevent future depredations.

GRAHAM'S MAGAZINE.—We have frequently during the past year had occasion to speak in terms of praise concerning Graham's Magazine. It can always be read with pleasure and profit, and is with us a decided favorite. The arrangements made by its publishers for 1856 are such as will secure to the patrons of "Graham" over twelve hundred pages of choice reading, fine engravings, and new music. The "Editor's Table" is a monthly feast of good things, bits at the times, domestic gossip and humorous chit-chat. The Ladies' department is well arranged to suit the wants of the fair, is illustrated with fashion plates, patterns for needle-work, &c. In a word, the Magazine each month contains something to suit "the whole family," the grave and gay, the young and the old. The new volume commences with the number for January, and the present is a proper time to send on subscriptions.

Terms.—One copy, one year \$3; two copies, \$5; five copies, and one to the person getting up the club, \$10. Abraham H. See, publisher, 106 Chestnut st., Philadelphia.

FRANK LESLIE'S ILLUSTRATED NEWSPAPER.—This is to be one of the handsomest publications of the age, and we commend it to the patronage of those of our readers who desire a pictorial paper. Besides the varied engravings illustrating subjects of general interest, each number will contain a large amount of news, literary contributions, tales, sketches, poetry, police and law reports, &c. It will be found not only to be a handsome, but a useful paper. Published weekly, each number containing 16 large pages. Terms, per volume of 6 months, \$2. Address, FRANK LESLIE, 12 and 14 Spruce street, New York.

A difficulty occurred last week among the students of Bethany College, Virginia, over which Rev. Alexander Campbell presided. One of the Northern students attempted to deliver an abolition address, when he was hissed down by the Southern students, and attempts were made to lynch him. All the Northern students have since left the college.

FATIGUES.—A wealthy St. Domingo coffee-dealer, whose skin was rather dark, essayed to dine last week at one of the Boston restaurants, when the waiter informed him that it was against the rules to entertain colored persons. A row ensued, which required the interference of the police; but it appears that the gentleman did not succeed in getting his dinner. Boston folks are full of notions. Sometimes black appears to be their favorite color; at other times they manifest the greatest repugnance to it.

The Governor of Georgia recommends a return to annual meetings of the Legislature in that State. Every body has become convinced that the biennial sessions for a large and growing State are a great mistake.

At Richmond, Va., last week, thirty-three negroes brought in from Halifax county, including masons, stonemasons, and both sexes, brought \$30,566 at auction.

A number of registered letters in the Philadelphia post-office are missing, and there is quite an excitement among the parties interested, and the clerks. Among the letters missing are two mailed by Thomas Biddle & Co., containing a \$12,000 Coupon of the Pennsylvania State Bonds, and \$4,500 worth of the bonds of the Westchester Railroad. Messrs. Gans and Macfarlane have also lost \$2,000 in bonds of the latter description.

THE RAILROAD BRIDGE AT FRANKFORT.—The Louisville Courier says that the recent bridge-falling epidemic among railroads, induced the President and Superintendent of the Louisville and Frankfort Railroad, to cease running their passenger cars over the suspension bridge at Frankfort with their passengers. They are now landed at either side and walk across. These officers deserve much credit for this prudent arrangement. The bridge is probably as strong and safe now as it has been for years, but it has always been regarded as more or less insecure, and if these fears should prove to be well grounded, it is gratifying to know that its fall would not result in the sacrifice of the lives of passengers travelling over the road.

The Board of Directors have instructed their Superintendent to procure the opinion of the best engineer in the United States, to test the bridge for the best and safest bridge that can be constructed. As an early day, therefore, we may expect a suitable structure will take the place of the rickety bridge that now spans the Kentucky at Frankfort.

Governor Wright says our grass crop is not properly appreciated. No crop, he says, approaches so near a spontaneous yield, and none yields so large a profit. The hay crop of the United States in 1855, was over 13,000,000 tons; that of 1856, he estimates at 15,000,000, which is worth \$150,000,000, while the whole cotton crop is valued at only \$129,000,000. Of this crop more than half is produced by the four States—New York (which yields one-fourth of the whole) Ohio, Indiana and Illinois. The grass crop which is used for pasturage, is at least as valuable; so that this single herb is worth annually over three hundred millions of dollars. Few people will believe that the grass crop of the State of New York is worth more than its wheat, and yet statistics show that such is the case.

In New Haven, Conn., where the Maine law is in operation, the town liquor agency, established by the law to sell liquor for medicinal and mechanical purposes, sold the past year, 9,000 worth of the fluid. This sum would purchase a hundred hogsheads of rum. Good deal of sickness last year in New Haven.

A man named John J. Jones has just been convicted at Burlington, Iowa, of murder in the first degree, and sentenced to be hung for murdering Horatio McCordie, fifteen years ago.

Rev. Mr. Poindexter, of Virginia, made an interesting statement in the Kentucky Baptist Convention, held recently at Louisville, concerning the explorations in Central Africa of Mr. Bowen, a missionary of the Southern Baptist Convention. He reported in a recent letter that he had discovered a city, hitherto unknown, quite as large as London.

New Counterfeiters.—Well executed counterfeit 5's on the Farmer's Bank of Kentucky are in circulation in considerable quantities in the Green River country.

New counterfeit 5's on the State Bank of Indiana have also made their appearance. They are said to be well calculated to deceive those who are not watchful. Look out for them.

Crab Orchard Springs.

MESSRS. EDITORS: Will you permit me to answer through your columns, a communication from an acquaintance, a distance, who is in declining health, asking my opinion in reference to the merits of the influence of the Crab Orchard medical waters, in restoring 70th health in certain diseases, at this season of the year; and also the propriety of sending for a copy of the "Illustrated Newspaper," of which I had the pleasure a few days since, of visiting those springs; and found the water in most excellent condition for use. I conceive the present to be the best season for the use of the waters, for they are in the restoration of lost energy, such as may arise from dyspepsia, habitual constipation, rheumatism, gout, first and forming stages of consumption, hemorrhage of the bowels, a large portion of that class of maladies arising from nervous debility and deranged nutrition. As respects their medicinal influence in the above maladies, I can speak advisedly, as knowing, having had some two or three years practice in my profession in connection with those waters. I have found their influence in the removal of disease and their power to correct health, just as accurate and as effectual as a large portion of that class of maladies arising from nervous debility and deranged nutrition. THE BOWLINGGREEN STATION.—The Bowlinggreen Station, which was built by Wm. L. Royce and Benj. Mr. Royce had his preliminary trial before an examining court, and was discharged on the ground of self defence.

The total number of hogs and cattle in Ohio for the years 1855, 1854, 1853, and 1852, according to the Assessor's returns, was as follows:

Land warrants are declining rapidly. The National Intelligence says.

During the last three days land warrants have materially declined, and dealers with a few exceptions, have refused to buy. The quotations are nominal, and but few land warrants would be sold at over \$1 per acre, though holders are unwilling to sell at the price offered by buyers.

Later from Europe.

The Atlantic has arrived at New York with week's later news from Europe.

There is nothing important from the Crimea. There are many peace rumors, but the residence is placed in them.

On the 5th of November, the Turks to the number of 20,000, entered the Crimea, and engaged with 10,000 of the Russian Militia. The Turks were victorious; took three guns and sixty prisoners. The loss of life was not heavy on either side. Kars is still besieged.

COMMERCIAL.

THE HOG MARKET.—At Louisville, the market for hogs is not by any means brisk, and appears to be rather unsettled. The market is still quoted at \$6.25 to \$6.50, the latter paid only by pork-house owners. The total number killed up to Monday last, was 36,617, with 11,739 in pens.

The prices at Cincinnati are \$6.25 to \$6.50, at which the market is firm. At St. Louis, buyers are offering \$6 and sellers asking \$6.25. At Nashville, packers are offering 65¢ net.

The prevailing price in this country for net pork is \$6. We have heard of a few light sales at that price. There appears to be but little to sell, and but few disposed to buy.

A friend from Adair county informs us that net pork is held there at 45¢.

Sales have been made in Lincoln county the present week at 45¢ net, though some holders are asking 50¢.

LOUISVILLE, Dec. 5.

WHAT RAILWAYS TO FOR FARMERS.
The following paragraph from the Athens (Ga.) Post, shows what railways do for farmers. The farmers of the three counties named, derive a clear profit this year alone, on the single acre of wheat, of more than \$200,000, from the railway. They 400,000 bushels of wheat, for \$200,000 more than it would have realized if there had been no railway to take it off.

Wheat. The price continues at one dollar. One hundred and nineteen wagonloads unloaded at the depot here on Thursday, the 6th. This country will export, of the late yield of the harvest, one hundred and sixty thousand bushels. Other counties along the line of the railroad will perhaps do well. The three counties of Bradley, McMinn and Monroe, from the information now in our possession, we have no doubt will sell for an average of one dollar per bushel. Here, then, is the sum of between four and five hundred thousand dollars diffused among the people of the counties for the single acre of wheat alone—the product of a single harvest. How much wheat did these three counties export, before the railroad was built, and at what price? Not more than twenty-five thousand bushels, and that same amount was sold at an average of fifty cents per bushel in the meanwhile, lands have quadrupled in value and the owners have actually become rich by the enchantment, almost without any effort of their own. Wonder if the people ever think of these things when they are complaining of the road's inability to do three months work in a single week?

PRESERVATION OF WHEAT FROM WEEDS.
Numerous remedies have been proposed to protect wheat from the ravages of weeds, but most of them have been impracticable or too expensive. Mr. Callar, in France, recommends the use of tar as a certain and economical agent for their destruction. He says: "The efficacy of tar in driving away the weed and preserving the grain, is an incontestable fact. My father had, a long time ago, his granaries, barns, and the whole house, infected with these insects; so much so that they penetrated into all the eels and among the linen. He placed an open cask impregnated with tar, in the barn and then in the granaries; at the end of some hours the weevils were climbing along the walls by myriads, and flying in all directions away from the cask. On moving this tarred vessel from place to place, the premises were in a few days completely cleared of these troublesome and pernicious guests. The agriculturalist who wants to get rid of weevils, may, as soon as he perceives their presence, impregnate the surface of some old planks with tar, and place them as required in his granaries. Care must be taken to renew the tar from time to time in the course of the year, to prevent the return of the insects."
